

Easy document access - anytime, anywhere.

Go beyond the basics – scan, file and retrieve with e-BRIDGE Document Library.

e-BRIDGE Document Library is an integrated document archiving tool allowing you to easily scan, file and retrieve electronic and paper documents. This state-of-the-art software is ideal for all document types including letters, faxes, emails and records.

Leverage your investment in your Toshiba e-STUDIO device. With complete document filing integration at your device, the paperless office is within reach. e-BRIDGE Document Library was expertly designed to integrate fully with the Toshiba device, allowing employees to scan and file paper-based documents directly on the MFP control panel.

e-BRIDGE

Where's that file?

Work Smart - Eliminate time wasted filing and retrieving documents, locating misplaced paperwork and routing information.

Spend Smart - Reduce administration expenses, paper and printing costs, and storage liabilities.

Environmentally Aware - Gain valuable office space by removing the need for space-wasting filing cabinets and storage rooms.

Easy document access - anytime, anywhere.

e-BRIDGE Document Library is web-enabled, meaning critical documents can be used, shared and distributed via any internet connection 24/7- whether you are in the office or thousands of miles away from it.

Easy to use - The familiar internet search engine interface allows employees to immediately begin using the application without costly, time-consuming training.

Easy to install - there is no complicated implementation, saving your IT department valuable time.

Easy to secure - you can be confident that sensitive information is secure by enabling password protected access.

Optimized for any application.

e-BRIDGE Document Library comes complete with six pre-defined filing cabinets customized to industry specific document management needs:

Administration - enables filing by company names, document type, date and more.

Education - manage files by student name and student number and more.

Finance - track financial documents by client name and number and more.

Health Care - track documents by patient name, patient ID number and more.

Legal - store documents by subject matter or case number and client name.

Transport - manage distribution documents by document number and date and more.

e-BRIDGE Document Library goes beyond the one-size-fits-all solutions that come packaged with most MFPs. For the same price as a basic application, e-BRIDGE Document Library delivers a feature-rich intuitive solution. So not only is it simple to use, it makes perfect sense to own.
